Agenda Item 18

TASK 5A SCOPE OF WORK AMENDMENTS

Region K

AECON

18. Scope of Work Amendments

------------▼ Potential New Strategy

- - Subordination
 - Strategy would make Llano's water rights more senior than downstream water rights, allowing them to increase their firm availability during drought conditions. Yield will be determined using the Region K Cutoff Model under DOR conditions.
- ▼ SubTask Budget Amendments
 - Reuse (\$14,000 > \$28,000)
 - Brush Management (\$1,000 > \$2,500)
 - Austin Conservation (\$2,000 > \$3,000)
 - Austin Blackwater and Greywater Reuse (\$1,000 > \$2,500)
 - Austin Onsite Rainwater and Stormwater Harvesting (\$1,000 > \$2,500)

Region K

AECOM

8

Agenda Item 6

UPDATE TO DRAFT STRATEGIES BASED ON COMMITTEE COMMENTS

Region K Page 9

9

6. Update to Draft Strategies Based on Committee Review

- ▼ Changes Based on Meeting Discussion September 16, 2019
 - Expand Use of Local Groundwater/Development of New Groundwater Supplies
 - Added GCD permit fees, DFC decade, and iron/manganese treatment for municipal & manufacturing WUGs
 - Added language to agricultural impacts describing additional pumping costs due to drawdown
 - · Specific Write-up changes:
 - Expand Local Use of Carrizo-Wilcox: environmental language updated
 - Develop New Groundwater in Yegua-Jackson: land acquisition increased, peaking factor changed
 - Expand Local Use of Gulf Coast: added language associating expand use of local groundwater with the Wharton Water Supply project
 - Expand Local Use of Ellenburger-San Saba: Bertram yield updated to 2,000 AFY.
 Received development projections from Bertram

Region K Page 10

10

10/3/19 5

6. Update to Draft Strategies Based on Committee Review

- ▼ Changes Based on Meeting Discussion September 16, 2019
 - Oceanwater Desalination
 - Revised by removing references to LCRA to make strategy more general and amended agricultural impacts
 - Direct Reuse
 - · Increased project yield, per Lakeway MUD's request
 - Infrastructure added: high service pumps, additional transmission mains to service neighboring WUGs
 - Downstream Return Flows

- · Added cost for additional intake pumping
- ▼ Are these ready to move to RWPG review?

Region K Page 11

11

Agenda Item 7

PRESENTATION AND DISCUSSION OF DIRECT POTABLE REUSE

Region K Page 12

12

7. Direct Potable Reuse

- Reclamation and treatment of water from wastewater to drinking water quality.
 - Buda, Dripping Springs, West Travis County PUA (WTCPUA)
 - Yield = Buda 2,240 ac-ft/yr; Dripping Springs 560 ac-ft/yr; WTCPUA 336 ac-ft/yr (online 2030)
 - Costs
 - Total Project Costs: Buda (\$33,503,000), Dripping Springs (\$12,119,000), WTCPUA (\$7,788,000)
 - Annual Cost: Buda (\$4,399,000), Dripping Springs (\$1,446,000), WTCPUA (\$972,000)
 - Unit Cost: Buda (\$1,964/ac-ft), Dripping Springs (\$2,582/ac-ft), WTCPUA (\$2,893/ac-ft)
 - Notes
 - DPR implementation for Buda, the Total Dissolved Solids (TDS) concentration of the DPR residual return flows to the receiving Plum Creek watershed would be increased
 - Strategy would reduce effluent discharge flows into the tributaries of Plum Creek by up to 2,240 ac-ft/yr

Region K Page 13

13

Agenda Item 8

.

UPDATE AND DISCUSSION OF LCRA WATER MANAGEMENT STRATEGY EVALUATIONS

Region K Page 14

14

8. LCRA Strategy Evaluations

- ▼ Strategies under LCRA review; comments received 10/2/19 (6)
 - LCRA Expand Groundwater in Bastrop County
 - LCRA Groundwater for Fayette Power Plant onsite (smaller yield within MAG)
 - LCRA Alternative Groundwater for Fayette Power Plant onsite (larger yield exceeding MAG)
 - LCRA Groundwater for Fayette Power Plant offsite
 - LCRA Baylor Creek Reservoir
 - Alternative LCRA Supplement Environmental Flows with Brackish Groundwater
- ▼ Revised Strategies (1)
 - LCRA Downstream Return Flows

Region K

Page 15

AECON

15

8. LCRA Strategy Evaluations

▼ Strategies in-progress (14)

- New LCRA Contracts (finalizing WUGs with remaining needs)
- New LCRA Contracts with Infrastructure (finalizing WUGs with remaining needs)
- LCRA Contract Amendments (finalizing WUGs with remaining needs)
- LCRA Contract Amendments with Infrastructure (finalizing WUGs with remaining needs)
- LCRA Prairie Site Off-Channel Reservoir (pending modeling)
- LCRA Mid-Basin Off-Channel Reservoir (pending modeling)
- LCRA Excess Flows Off-Channel Reservoir (pending modeling)
- Amendments to LCRA Water Management Plan (pending modeling)
- LCRA Import Return Flows from Williamson County (pending modeling)
- LCRA Enhance Recharge and Conjunctive Use (pending modeling)
- LCRA Amendments to Existing Water Rights/Permits (pending modeling)
- LCRA Aquifer Storage and Recovery (ASR) in Carrizo-Wilcox (pending modeling)
- LCRA Brackish Groundwater Desalination (coordinating with LCRA)
- LCRA Groundwater Importation from Carrizo-Wilcox (coordinating with LCRA)

Region K

Page 16

AECOM

16

Agenda Item 9

UPDATE AND DISCUSSION OF AUSTIN WATER MANAGEMENT STRATEGY EVALUATIONS

Region K Page 17

17

9. Austin Strategy Evaluations

- ▼ Strategies with Austin comments ready for Committee review
 - Conservation
 - Lake Austin Operations
 - Austin IPR
 - Austin Capture local Inflows to LBL
 - Austin Off-Channel Reservoir
 - Austin Aquifer Storage and Recovery
- Austin reviewing and/or pending data from Austin
 - Austin Blackwater and Greywater Reuse
 - Austin Community-Scale Stormwater Harvesting

- Austin Centralized Direct Non-Potable
- Austin Brackish Groundwater Desalination
- Austin Decentralized Direct Non-Potable Reuse
- Austin Onsite Rainwater and Storm Water Harvesting
- Austin Drought Management
- ▼ In Progress
 - Austin Return Flows
 - Austin Amendments to Existing Water Rights/Permits

Region K

Page 18

AECOM

18

.....

Agenda Item 10

UPDATE AND DISCUSSION OF CONTRACT/CONTRACT AMENDMENTS / WATER PURCHASE/WATER PURCHASE AMENDMENTS STRATEGY EVALUATIONS

Region K Page 19 AECOM

19

10. LCRA New Contracts/Contract Amendments

- ▼ Looking at which WUGs might benefit from new or additional LCRA water after groundwater options were reviewed.
- ▼ Evaluating which ones would need new or additional infrastructure to implement.
- ▼ Need to ensure that LCRA has sufficient strategy volumes to meet the needs.

Region K Page 20 A=COM

20

10. Water Purchase/Water Purchase Amendments

-
- ▼ WUGs in the region purchase water from water providers other than the three Major Water Providers. Assuming water is sold at retail cost, so there is no additional cost to the WUG.
 - Previously discussed
 - · Barton Creek WSC
 - Purchase Amendment from Travis County MUD 4
 - · Creedmoor Maha WSC
 - Purchase Amendment from Aqua WSC
 - · Travis County MUD 14
 - Purchase Amendment from Aqua WSC
 - · Hays County Mining
 - New Purchase from Buda (reuse) Included in 2016 RWP
 - New strategies in-progress
 - Hays
 - New Purchase from Buda; Infrastructure required
 - Windermere
 - Coordination with WUG

..............

Region K Page 21

<u>AECOM</u>

11

21

Agenda Item 11

PRESENTATION AND
DISCUSSION OF NONMUNICIPAL CONSERVATION +
DROUGHT MANAGEMENT
STRATEGY EVALUATIONS

Region K Page 22

10/3/19

22

11. Irrigation Conservation

Page 23 AECON Region K

23

11. Irrigation Drought Management

- Irrigation drought management assumes half of rice farmers will only grow a first (main) crop and not a second (ratoon) crop in years where growth of the main crop impede the ability to grow the ratoon crop.
 - Irrigation WUGs (Colorado, Matagorda, Mills, Wharton)
 - Yield = 40,592 ac-ft/yr (online 2020)

- - Based on TWDB Socioeconomic Impact Analysis of Unmet Needs from the 2016 Region K Water Plan (will be updated for 2021 plan when report is released)
 - Unit Cost: Colorado (\$132/ac-ft), Matagorda (\$193/ac-ft), Mills (\$183/ac-ft), Wharton (\$203/ac-ft)
- - · Not supplying water to meet irrigation needs has negative economic impacts to the entire agriculture economy and rural local economies
 - Strategy would reduce irrigation return flows by up to 9,300 ac-ft/yr and reduce the acreage of potential feedstock for migratory birds by approximately 19,000

Page 24 A=COM Region K

24

11. Mining Conservation

- Mining conservation involves taking the existing pumped groundwater, once used, letting it settle, and then recycling it for additional use rather than pumping additional groundwater from the aquifer.
 - Mining WUGs (Bastrop, Burnet)
 - Yield
 - Bastrop Mining: 2 ac-ft/yr (2020); 243 ac-ft/yr (2030); 308 ac-ft/yr (2040); 233 ac-ft/yr (2050)
 - Burnet Mining: 1,000 ac-ft/yr (2020); 1,500 ac-ft/yr (2070)
 - Costs
 - · Assumed no facilities cost; energy costs included
 - Annual Cost: Bastrop Mining (\$5,000), Burnet Mining (\$45,000)
 - Unit Cost: Bastrop Mining (\$16/ac-ft), Burnet Mining (\$30/ac-ft)
 - Notes
 - · Negligible impact to environment/agriculture

Region K Page 25

25

Agenda Item 12

PRESENTATION AND DISCUSSION OF HAYS COUNTY GROUNDWATER IMPORTATION STRATEGIES

Region K Page 26

26

12. Groundwater Importation: Alliance Regional Water Authority Pipeline

- Withdrawal and transport of groundwater from the Carrizo-Wilcox aquifer in Gonzales County to 1-35 Corridor area near San Marcos, Kyle, and Buda; primarily Region L strategy.
 - Buda
 - Yield = 762 2,467 ac-ft/yr (online 2030)
 - Costs
 - · Region L to provide updated costing
 - Total Project Costs: \$34,996,869
 - Annual Cost: \$4,751,402
 - Unit Cost: \$1,926/ac-ft
 - Notes
 - · Cagle's map turtle (protected species) located within the project area
 - Socioeconomic impacts Importing groundwater from a more rural area to a more populated area may limit growth in the supplying area
 - · No impacts to agriculture

Region K Page 27

A=COM

27

12. Groundwater Importation: Hays County Pipeline

- Withdrawal and transport of groundwater from the Carrizo-Wilcox aquifer in Kyle area to western Hays County; strategy shared with Region L.
 - Hays County-Other, West Travis County PUA (WTCPUA)
 - Yield
 - Hays County Other: 1,000 ac-ft/yr (online 2030)
 - WTCPUA: 3,000 ac-ft/yr (online 2030)

- Costs
 - Total Project Costs: Hays County-Other \$7,616,500; WTCPUA \$22,939,500
 - Annual Cost: Hays County-Other \$646,250; WTCPUA \$1,938,750
 - · Unit Cost: \$646/ac-ft
- Notes
 - · Negligible impacts to agriculture
 - Socioeconomic impacts Importing groundwater from a more rural area to a more populated area may limit growth in the supplying area
 - Local groups potentially concerned about project

Region K Page 28

28

.....

Agenda Item 13

PRESENTATION AND DISCUSSION OF BRUSH MANAGEMENT

Region K

AECOM

29

13. Brush Management

Convert land that is covered with brush (juniper, mesquite, saltcedar) to grasslands, increasing water availability through reduced extraction of soil water for transpiration and increased recharge to shallow groundwater and emergent springs.

Page 29

- Blanco, Hays, Gillespie, and Travis County-Other
- Yield in DOR conditions = 5,571 ac-ft/yr (online 2030)
- Costs
 - Total Project Costs: \$29,707,000
 - Annual Cost: \$2,379,000
 - Unit Cost: \$427/ac-ft
- Notes
 - 2000 Pedernales River/Lake Travis watershed assessment and feasibility study
 - Brush management for water supply enhancement must be viewed favorably by the RWPG as a recommended or alternative Water Management Strategy or as a Policy Recommendation. Otherwise, the application is considered not to qualify for funding (State Water Supply Enhancement Plan, TSSWCB, July 2014)

Region K Page 30

30

Agenda Item 14

UPDATE AND DISCUSSION OF WHARTON WATER SUPPLY EVALUATION

Region K Page 31

31

14. Wharton Water Supply

▼ Requested from Wharton

- Wharton believes that its proximity to the Houston urban area and the new I-69 corridor will increase its water demands during the next fifty years beyond those otherwise anticipated in regional water planning
- ▼ Regional Water Supply Study for the City of Wharton and East Bernard
 - Published April 2017
 - Detailed three alternative supply sources to provide additional water: surface water, additional groundwater, and aquifer storage and recovery
 - The study recommended the use of additional groundwater; incorporated into Expand Use of Local Groundwater for Gulf Coast aquifer

▼ Strategy

- Project Yield (2030): 3,000 ac-ft/yr
- Total Project Costs: \$9,100,000; Annual Cost: \$817,000; Unit Cost: \$272/ac-ft

15. Remaining Draft Strategy Evaluations

- ▼ Goldthwaite Strategy Request
 - Water Right Permit Amendment and expansion of Goldthwaite's reservoir storage capacity cannot be recommended as a strategy, as the yield is 0 ac-ft/yr during drought of record
